EUH Electric Unit Heater Ordering Guide

EUH is a commercial and industrial electric unit heater that delivers powerful, energy-efficient comfort with flexible installation options and a durable, modern design. Engineered for easy stocking, installation, and service, the EUH is ideal for facilities seeking reliable electric heating and support for sustainability initiatives.

Benefits

- Flexible installation with wall- or ceiling-mount options, including low-clearance applications
- Easy selection and inventory management with multi-voltage and multi-phase capable models
- Durable, long-lasting performance featuring stainless-steel sheathed, finned heating elements and a scratch-resistant finish
- Modern, attractive appearance with clean lines, rounded edges, and concealed fasteners suitable for commercial environments
- Simplified service and maintenance with a hinged access door, quick-access controls, and readily available replacement parts
- Enhanced comfort and control with 24V controls, multi-stage heating options, and building management system compatibility

Applications

Commercial & Institutional

- Factories and manufacturing facilities
- Warehouses and distribution centers
- Workshops and maintenance facilities
- Vehicle repair shops
- Security buildings and guard houses
- Hallways and stairwells
- Entryways and loading areas
- Temporary heating applications
- Freeze-protection applications
