

# REZNOR®

## INDUSTRY LEADERS IN INNOVATION

We introduced our first gas-fired unit heater in 1920. Since then, we've continued to outdo our competitors by being the first to mount our units, first to offer high-efficiency models, first to offer separated combustion and by continuing to offer the lowest emissions. When you choose Reznor®, you get more than a unit heater. You get a high-quality system built by the industry's best and backed by an outstanding warranty, five years on parts and 10 years on the heat exchanger.

### FEATURES & BENEFITS

#### INSTALLATION & SERVICE

- Single burner combustion system
- External terminal strip for 24-volt wiring
- External gas connection
- Compact design
- Hinged service door with quarter turn latch
- Door attached to the chassis to prevent door drops
- Optional integrated downturn nozzle and integrated vertical louvers

#### MINIMIZE DOWNTIME

- External status indicating LED blinks if there is a problem that needs service
- 7-segment display board shows fault code for quick and easy diagnoses

#### ATTRACTIVE APPEARANCE

- Two-tone black and white powder coat, scratch-resistant paint scheme
- Clean metal panels without any visible screws or fasteners
- Tooled rounded vertical corners (30-125 MBH) and edges
- Reznor embossed on bottom of premium models

**JOIN OUR LEGACY. CHOOSE REZNOR.**

# COMFORT YOU CAN COUNT ON

Reznor® unit heaters are ideal for industrial, light commercial and residential applications. Our systems can be found in manufacturing plants, warehouses, home garages and workspaces, retail shops, automotive facilities and many more places.
