EHC Commercial Wall Heater Ordering Guide

Reznor's EHC is a commercial-grade electric wall heater designed to provide fast, reliable warmth in areas affected by cold drafts. Featuring a compact wall-mounted design, durable construction, and flexible installation options, the EHC is an ideal supplemental heating solution for commercial, institutional, and residential applications.

Benefits

- Rapid comfort with a powerful forced-air design that quickly warms entryways, corridors, and draft-prone spaces
- Flexible installation with recessed or surface-mount configurations to suit a variety of building layouts
- Attractive appearance with choice of white or almond and durable epoxy/polyester powder-coated finish
- Reliable performance from a closed, factory-lubricated motor and heavy-duty steel construction

Applications

Commercial

- Office buildings
- Retail stores
- Showrooms
- Exhibition halls
- Healthcare and medical facilities
- Warehouses and distribution centers
- Apartment buildings

Residential

- Entranceways and vestibules
- Stairwells
- Hallways and corridors
- Garages
- Multi-family housing
- Supplemental heating areas
